To become the client's first choice always by using the finest materials and creating an outstanding workmanship in interior execution.
To work to our fullest to satisfy the desires and needs of the clients and provide them with world class interiors and furnishings.

QUALITY PLAN

We are totally committed to meeting and maintaining highest Standards of Quality at all times. We shall always strive to meet and surpass the expectations of our clients by:

- Designing, Supervising and Executing high quality projects.
- Using the most modern technology and standard work procedures.
- Regularly enhancing the quality of our vendors and sub-contractors.
- Well skilled and motivated employees.

Quality shall be the core value at all levels of Smart vision Technical Services LLC

HSE

Health and Safety Action Plan

OUR GOAL: ZERO ACCIDENTS

Safety is a value that is fundamental to our culture. SVTS has earned an industry-leading record of achieving zero lost-time incidents on projects in Oman. Year after year, our zero accidents philosophy helps put our safety performance right at the top of the industry.

At SVTS, we believe that every accident, and therefore every injury, is preventable, and we embed that philosophy into every SVTS Project through a combination of technical field procedures and ongoing training programs. Every employee has stop-work authority if it's not safe, don't do it. We also ask our subcontractors and partners to adopt our commitment to safety and health. The result is exceptional safety performance, even in hazardous work environments, severe weather, and remote locations.

Our dedication to safety helps keep workers safe, and it also pays off for our customers. Their operating costs go down and productivity goes up because less time is lost to accidents. And our people go home to their families safely at the end of each day.
